

CONCEPT PAPER

Event : 2021 CEAA Days

Participants : 1st Year to 5th Year Engineering, Architecture and Aviation Students

Platform : Google Link
Facebook Live

Date : March 4-5, 2021

RATIONALE

Last year, 2020, the World Federation of Engineering Organizations (WFEO) declared worldwide the World Engineering day to be celebrated every 4th of March. For this year, even with this daunting crisis that we are experiencing, the College of Engineering, Architecture and Aviation (CEAA) plans to virtually celebrate with all the Perpetualite Engineers, Architects and Airmen. To encourage more participants, different virtual activities will be offered to students so they can choose the events where they can join such as Mr & Ms Tiktorist, Quiz Bee, Poster making, PerpetuaLENS Snapshot (Photography contest), online games such as Mobile legend, Call of Duty and Valorant. Highlight of this annual event will be the Virtual Exhibit of Architecture students where they will showcase all their architectural designs.

OBJECTIVES OF THE ACTIVITY

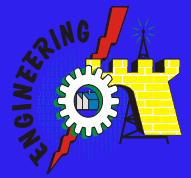

Through this activity, we will be able to:

1. Recognize the importance of getting a technical degree in Eng'g, Architecture and Aviation
2. *Inspire students to showcase their talents; and*
3. *Develop the soft skills of students such as team work, creativity and stress management.*

EXPECTED IMPACT

The CEAA would like to recognize the talents of the students and inspire this batch of students to make a difference. We would like to take this global challenges positively and eradicate anxiety and fear to all students. This activity will greatly develop the student's self-confidence and social interaction with other students and alumni. For alumni, their participation will inspire them to look back and be a part of school's activities and be given recognition as Engineers

PROGRAM FLOW/SCHEDULE OF ACTIVITIES
